

Is this your target market?

They are 18-35 year olds high disposable income earners, they do not make a lot but they spend it all on themselves. They are techno + media savvy. They choose a hybrid over a petrol car, they wear G Star + use a Mac. They are the leaders of their peer group and consume arts, entertainment + education in a discerning way. They have an undergraduate degree.

They buy their coffee from Gloria Jeans, attend the Ballet once a year + see movies every week (but not high concept movies) and they are onto their second Ipod.

If your target are 18-35 year olds we can reach them for you
– on: **Sydney1** or **Melbourne1**
